

留学体験記（ラオス生）

**Hello everyone, I am Marina from Lao PDR. I was an exchange student at Minami High School year 2021-2022 under Asia Kakhehashi Project. My classmates and homeroom teachers are incredibly amazing. I had enjoyed hanging out with my classmates a lot. When I first met my classmates. Many of them came and gathered around at my table talking to me which made me felt at ease on how easy it was to make friends with Japanese classmates.**

**Everyone at Minami High School was so nice and kind to me. One thing that I am definitely not going to forget during my time in Japan was when teachers at Minami High School found out I didn't bring enough sweaters with me during winter. Many of them were willing to lend me sweaters during my times in Japan.**

**I was so grateful and lucky to be placed in Minami High School during my exchange program. Minami High School had fulfilled my exchange life tremendously and I had changed for a better a lot.**

**Time flies so fast which I still couldn't believe that my five months program was ended.**

**I will never forget Minami High School and I promise to come back to this school again one day to meet everyone.**
