Lucky Chance!

Description: A board game to review the past tense.

Language Point: Past tense

Preparation: Copies of the board game. You will need one die for each pair and one counter for each student.

Instructions: Divide your class into pairs. Give each pair one die, two counters and a copy of the board game.

Students should take turn rolling the dice. Students should move as many spaces as the number rolled on the die. For example, if the student rolls 1 he or she should move forward 1 space. Students should say the past tense of the verb written in the space they land on. For example, if the verb is see then the past tense is saw.

If a student lands on a space with a ladder, he or she can move up the ladder. If a student lands on a space with an arrow, he or she should move down the arrow. The first student to reach the last space (#16) is the winner.
